Several products that we sell require you to provide truck data in order for us to specify the correct product for your application.

Front Hitches & Wing Plows

1. Measure Your Truck — Please download our *Truck Data Sheet*, print it out, measure your truck as directed
2. Enter Measurements in Truck Data Sheet Profile Tab — Login to www.siccma .com and enter your information into your online profile by going to
My Account/My Profile/Edit Profile
and entering your recorded data into the first available
Truck Data Sheet
tab
3. Upload Photos of Your Truck — We also require five photographs of your truck from specific angles, which you can also upload and label in your profile via the
Truck Photos
tab. See
Photograph Your Truck
for specific instructions.

Download Truck Data Form
