

Welcome to the first ever, web-based, buying group for the snow and ice contractors of Massachusetts!

The SICCMA is a secure and private organization that can only be accessed by Massachusetts snow and ice contractors. The organization provides group buying power on vital parts, equipment and services necessary to run a profitable snow and ice business.

To achieve this goal, the SICCMA researches and evaluates products from leading manufacturers in the snow and ice industry and forms alliances with the select few that prove to provide the best American made products, services and support.
