To help our engineers to accurately help you outfit your truck please follow these guidelines for shooting photographs of your truck(s). If you need information immediately, please contact us directly via email.

We limit the file sizes of uploaded images to save server storage space. Adjust your camera's settings to shoot at the lowest quality setting. Please follow the specifications below and scale each image accordingly before uploading them to your profile:

- Maximum image dimensions: 500 pixels X 500 pixels at 72 pixels-per-inch (ppi) resolution.
- Maximum image filesize: 250 KB

Thank you
