

Several products that we sell require you to provide truck data in order for us to specify the correct product for your application.

Front Hitches & Wing Plows

1. Measure Your Truck — Please download our *Truck Data Sheet*, print it out, measure your truck as directed

2. Enter Measurements in Truck Data Sheet Profile Tab — Login to www.siccma.com and enter your information into your online profile by going to *My Account/My Profile/Edit Profile* and entering your recorded data into the first available *Truck Data Sheet* tab

3. Upload Photos of Your Truck — We also require five photographs of your truck from specific angles, which you can also upload and label in your profile via the *Truck Photos* tab. See [Photograph Your Truck](#) for specific instructions.
